Massillon.

The lots are of good size and will be sold at such easy terms of payment as to place a home within the reach of all. The beauty of the location is an surpassed, and we believe it is a conceded fact that a location on the west bank of a ranning stream of water is always more healthy than one on the east bank.

water is always more nearry than one of the carebank.

It is apparent to all that the business and pepulation of Massillon are vory rapidly increasing; it is also apparent that public attention is directed to the west side of the river as the most desirable point for a home now in the market, or that probably ever will be in the market again. We think therefore that it is safe to predict that in a very few years this grand addition.

## RIVERSIDE.

Will be covered over with dwelling houses, which will be occupied by a large proportion of the busy citizens of the city of Massillon.

Every man who has a family or ever expects to have one ought to have a hour in his own right, then he will be independent, if not rich. A better copolitunity will never again be off red of securing one so dssirable, so cheap; and so casily paid for. Also a very desirable out let, of about eight acres, adjoining Massillon, an the Canton road, will divide well into three or four pasture lots.
